ADRIANA LATORRE
Mobile developer

ABOUT ME

I am a peaceful person who loves to learn and is constantly looking for devalopment and personal growth.

After 15 years of experience as a photographer, i decided to dream further and take a new path in the field od technology.

I attended a preparatory course at Digital House Brasil School and learned the JavaScript / Node.Js stack, with ExpressJs, MongoDb, MySql and React, with attencion on clean code and unitary test.

During the course i discovered React-Native and that´s where my interest in the mobile universe began. After that my curiosity took me to Kotlin language and i fell in love with it, so i decided to dedicate my time and study to delve deeper on it and also on Java to learn more everyday.

I'm looking for na opportunity to get into the Market and grow with new challenges.

LANGUAGES

- Portuguese – Native
- English – Intermediate
- Spanish – Intermediate

SKILLS

- Team work
- Communication/oratory
- Love challenges
- Persistent
- Empathy
